

- 53) The maximum normal stress in MN/m^2 for the thin walled beam of square cross section of outer dimension $120mm \times 120mm$ and wall thickness $1mm$ under the action of moment $M_o = 96Nm$ as shown in the figure is _____ (in three decimal places).

- 54) The idealized cross section of a thin-walled wing box structure shown in the figure is subjected to an anticlockwise torque of 10 kNm. The corresponding shear-flow distribution under this loading condition is shown in the figure. The area of each cell is $A_1 = 300 \times 10^3 mm^2$ and $A_2 = 250 \times 10^3 mm^2$. The ratio of the unknowns $\frac{x}{y}$ is given by _____ (in three decimal places).

- 55) The natural frequency of the system suspended by two identical springs of stiffness k as shown in the figure is given by $\omega_n = a \sqrt{\frac{k}{m}}$ for small displacement. Both the springs make an angle of 45° with the horizontal. The value of a is _____ (in two decimal places).

- 56) The ninth and the tenth of this month are Monday and Tuesday _____.
- figuratively
 - retrospectively
 - respectively
 - rightfully
- 57) It is _____ to read this year's textbook _____ the last year's.
- easier, than
 - most easy, than
 - easier, from
 - easiest, from
- 58) A rule states that in order to drink beer, one must be over 18 years old. In a bar, there are 4 people. P is 16 years old. Q is 25 years old. R is drinking milkshake and S is drinking a beer. What must be checked to ensure that the rule is being followed?
- Only P's drink
 - Only P's drink and S's age
 - Only S's age
 - Only P's drink, Q's drink and S's age
- 59) Fatima starts from point P , goes North for 3km , and then East for 4km to reach point Q . She then turns to face point P and goes 15km in that direction. She then goes North for 6km . How far is she from point P , and in which direction should she go to reach point P ?
- 8 km East
 - 12 km North
 - 6 km East
 - 10 km North
- 60) 500 students are taking one or more courses out of Chemistry, Physics, and Mathematics. Registration records indicate course enrolment as follows: Chemistry (329). Physics (186). Mathematics (295). Chemistry and Physics (83). Chemistry and Mathematics (217). and Physics and Mathematics (63). How many students are taking all 3 subjects?
- 37
 - 43
 - 47
 - 53

- 61) "If you are looking for a history of India, or for an account of the rise and fall of the British Raj, or for the reason of the cleaving of the subcontinent into two mutually antagonistic parts and the effects this mutilation will have in the respective sections, and ultimately on Asia, you will not find it in these pages; for though I have spent a lifetime in the country. I lived too near the seat of events, and was too intimately associated with the actors, to get the perspective needed for the impartial recording of these matters."

Which of the following statements best reflects the author's opinion?

- a) An intimate association does not allow for the necessary perspective.
 - b) Matters are recorded with an impartial perspective.
 - c) An intimate association offers an impartial perspective.
 - d) Actors are typically associated with the impartial recording of matters.
- 62) Each of P, Q, R, S, W, X, Y and Z has been married at most once. X and Y are married and have two children P and Q. Z is the grandfather of the daughter S of P. Further, Z and W are married and are parents of R. Which one of the following must necessarily be FALSE?
- a) X is the mother-in-law of R
 - b) P and R are not married to each other
 - c) P is a son of X and Y
 - d) Q cannot be married to R
- 63) 1200 men and 500 women can build a bridge in 2 weeks. 900 men and 250 women will take 3 weeks to build the same bridge. How many men will be needed to build the bridge in one week?
- a) 3000
 - b) 3300
 - c) 3600
 - d) 3900
- 64) The number of 3-digit numbers such that the digit 1 is never to the immediate right of 2 is
- a) 781
 - b) 791
 - c) 881
 - d) 891
- 65) A contour line joins locations having the same height above the mean sea level. The following is a contour plot of a geographical region. Contour lines are shown at 25 m intervals in this plot.

Which of the following is the steepest path leaving from P?

- a) P to Q
- b) P to R
- c) P to S
- d) P to T
